Color Symphony

Imagine a life without color . . .

Color and music can help define our personalities and our mood in the same way it can define any interior space. Color captivates, accentuates and helps set the tone and tempo within our environment. It can be as vibrant as a crashing crescendo, or as soft as a gentle sonata and is an essential part of our self-expression.

Color Symphony brings you the option to compose the perfect mood for your interior space. Combining these accent colors with any of our design collections will give a palette of choice to compliment your interior and give it that personal touch to make it extraordinary.

*Designed and engineered for performance
by the CI Design and Product Development team.*

Partnering Color Symphony with neutral bases to define the space and compliment interior accent finishes.
