8 MILLION
METRIC TONS OF
PLASTIC
ENTERS THE OCEAN
FROM THE LAND
EACH YEAR

EcoSoft® marks a new era in the development of high-performance and environmentally friendly carpet tile cushion backing.

Natural spring water may be good for your health, but the bottles themselves threaten our environment by swallowing landfill space and increasing air-pollution from incineration. Uncontrollable volumes of plastic waste continue to flow into our oceans every second! EcoSoft®, our established high performance carpet cushion backing, is made from 80% post-consumer material reengineered from discarded drinking water bottles plus 5% post-industrial recycled PET. So you can breathe and walk with ease.

If things continue as is... by 2050
there will be more
PLASTIC

than

in the

OCEAN

**THE PATH TO
ONE BILLION**

To date EcoSoft® has recycled over 830 million PET bottles from polluting our planet... Be a part of this mission!

At Carpets Inter, we create modular carpet that does more than just make the world more beautiful; it makes it more livable. We do this with products that meet stringent indoor air-quality needs, are safe to manufacture and utilize and incorporate recycled materials wherever feasible including our unique EcoSoft® backing fabricated from millions of recycled plastic bottles. Our commitment to ecological sustainability extends beyond our product. We practice it in everything we do – from manufacturing facilities that maintain the highest environmental standards, to reducing our carbon footprint in every facet of our global business.

**THE SOLUTION
TO CLIMATE CHANGE

Waste Elimination
Carpets Inter EcoSoft® carpet tiles

Over 150 projects, people and products were nominated for Australia's 'Sustainability Awards' organized by Architecture & Design and In Design Media Asia Pacific Magazine. All nominees exhibited a high caliber of design that choosing the finalists was an arduous task even for the highly experienced jury. After careful and deliberate consideration, Carpets Inter's EcoSoft back modular Carpet tile manufactured from recycled Plastic Bottles was selected as the unanimous winner of the 'Waste Elimination' category. The award recognizes Carpet Inter continued efforts to provide leading Architects and Interior Design practices with fit for purpose sustainable product solutions, suitable for WELL Buildings in many appealing styles.
