DESIGN

# REUSO

## *Complimentary components working together*

The ability to mix colours and batches allows for a unique and economical installation which is kinder to the world around us. Flexibility within this collection is at the heart of creating individual interiors.

**Reuso** is a modular carpet tile designed to utilise every square inch produced to reduce waste.

With two options of environmentally respectful backing types, **Reuso** offers a package both inspired by, and the genuine reuse of everyday materials into new products.

**Inspired by the natural beauty of aged material and its potential to become something new again.**

**Mix it up**

# THE PATH TO ONE BILLION

To date EcoSoft® has recycled over 787million PET bottles from polluting our planet... Be a part of this mission!

At Carpets Inter, we create modular carpet that does more than just make the world more beautiful; it makes it more livable. We do this with products that meet stringent indoor air-quality needs, are safe to manufacture and utilize and incorporate recycled materials wherever feasible including our unique EcoSoft® backing fabricated from millions of recycled plastic bottles. Our commitment to ecological sustainability extends beyond our product. We practice it in everything we do – from manufacturing facilities that maintain the highest environmental standards, to reducing our carbon footprint in every facet of our global business.

**RELAX AND RECHARGE WITH SUPERIOR NOISE REDUCTION**

SUSTAINABILITY CAMPAIGN, CARPETS INTER

# Help protect our planet.

*The threat to our marine life is at a critical level due to the massive amounts of plastic being dumped in our oceans every day. At Carpets Inter, to date we have recycled over 787 million PET bottles into the manufacturing our unique 'EcoSoft' cushion back modular carpet tile, thus reducing the effects of plastic pollution on our planet.*

**Help us continue to be a part of the solution..**

# We will RECYCLE OVER 1,000,000,000 discarded PLASTIC BOTTLES by 2025

## EcoSoft®

### Sustainable Performance and Value

EcoSoft® is made from 80% post-consumer material reengineered from millions of discarded drinking water bottles, plus 5 to 10% post-industrial recycled PET. This environmentally friendly backing not only meets all the stringent performance criteria required for modular carpet, but consistently out performs conventional PVC and bitumen hard back, as well as urethane cushion back in terms of durability, underfoot comfort, acoustical propensity and indoor air quality.

### EcoSoft® Outstanding Features

- > 85% recycled content backing
- > 100% recyclable
- > No PVC, Bitumen or Fiberglass content
- > Suitable for installation onto wet slab up to 99% RH
- > Superior Acoustical Propensity - outperforms hardback by 150% to 175% per Green Star IEQ10 internal noise level requirements
- > Excellent Dimensional Stability BS EN 986 less than 0.15%
- > Cushioning reduces wear and tear, fiber crush and user fatigue
- > EcoSoft® backed modular carpet product contributes up to 6 LEED points

In view of the superior properties outlined above, modular carpet with EcoSoft® backing is the ideal choice for Education facilities.

## EcoSquare®

### Sustainable Performance and Value

EcoSquare® is another step in Carpet Inter's ongoing Sustainability and Reclamation program, repurposing waste material into a recycled high performance modular carpet backing.

### EcoSquare® Outstanding Features

- > 63.5% recycled content backing
- > 100% recyclable
- > Meets Greenstar best practice guidelines
- > Free of toxic plasticisers and stabilisers
- > Excellent Dimensional Stability BS EN 986 less than 0.15%
- > EcoSquare® backed modular carpet product contributes up to 5 LEED points
