MESA ALTO / CARPETS INTER

Mesa Alto

Isolated, flat-topped elevation, ridge or hill, surrounded on all sides by steep escarpments that stands distinctly above a surrounding plain.

MESA ALTO / CARPETS INTER

Productivity

A BEAUTIFUL AND MEANINGFUL SPACE IN WHICH NATURAL CALMING DESIGN IS EXPRESSLY CONSIDERED CAN IMPART A SENSE OF COMFORT, EASE, POTENTIALLY MITIGATE STRESS, AND ENHANCED ACOUSTIC PROPERTIES.

Classroom design and function has a significant effect on a student's learning ability. To improve a student's academic achievement, educational facilities should ensure they meet modern day demands for open, flexible and adaptable spaces with interior environments conducive to nurture the learning experience.

Creative Learning

MESA ALTO / CARPETS INTER

Mesa - MS28 Ingleborough

EDUCATIONAL FACILITIES SHOULD ENSURE THAT THE INTERIOR ENVIRONMENT IS CONDUCTIVE TO NURTURE THE LEARNING EXPERIENCE.

Carpets Inter provide durable "fit for purpose" floor covering solutions to educational facilities.

Education facilities will use a combination of flooring types within their interior spaces, specifically chosen to ensure high performance, ease of maintenance, operational health & safety, noise reduction, aesthetic appeal and best return on investment.

Carpet is still the proven choice for interior architects and designers as a canvas to introduce pattern, color and way-finding into an inspirational floor covering. Enhancing the learning experience with a soft feel that absorbs unwanted background noise.

This solution dyed modular carpet tile offers high performance at great value. The understated organic texture provides an elegant and functional floorcovering solution.

At Carpets Inter, we make high-quality modular carpet products to enhance people's lives. This commitment goes beyond providing a product that is safe, comfortable, and well designed.

The role buildings can play in human health and well-being has never been more evident or more important. Thanks to an evolving evidence base, we understand more about the relationship between the physical environment and human health than ever before. We know how to create spaces that enhance – rather than hinder – health and well-being. We can measure – and then improve – the quality of our air, water, and light. We can design environments that fuel our bodies, move us, keep us connected, inspire our best work, and facilitate a good night's sleep.

Inspired by Nature

Vibrant Touch of Nature

MESA ALTO / CARPETS INTER

Nature has always been an important component of office décor.

Using natural elements help incorporate health and well-being into architectural and interior designs. A poll taken by Human Spaces and published in The Global Impact of Biophilic Design reported natural elements in the workplace environment such as greenery and sunlight gave workers a 15% higher level of well-being. And they were 6% more productive and 15% more creative.
